These costs are responsibility of the customer and will **NOT** be paid by Better Built Bulliez. Studs purchased cannot be resold to any 3<sup>rd</sup> party or given/used by any other DAM owner than the purchaser. This Stud credit purchased can only be used on the DAM stated above; even if, for any reason, your DAM cannot be bred again.

Owner of Dam will be allowed up to 2 repeat breedings, if breeding does not take, or Dam has 2 or less pups. Therefore, a total of 3 breedings. If 3 breedings are unsuccessful after adequate quality semen is sent, then Dam owner will be granted one frozen breeding from stud. The contract has then been fulfilled by Better Built Bulliez.

We reserve the right to ask for documentation as proof the said female is not pregnant. In the case that a litter of 3 or more pups are born and do not survive, as a result of negligence by the owner of the Dam, Better Built Bulliez, will **NOT** grant a repeat breeding. It is the owner of the female's responsibility to take care of the whelping and rearing of pups. As well as supervising Dam with pups. Especially if it is the female's first litter. We **HIGHLY** recommend that you take your pregnant female to the vet on a regular basis while pregnant and get an ultrasound and schedule a c-section if needed. Vet visits are vital to a successful birthing!

Customer will provide Better Built Bulliez with proof of a negative brucellosis test if a natural tie is to be performed before said breeding is to occur. This is to prevent any sexually transmitted diseases when performing a natural breeding.
